SAFETY DATA SHEET

SECTION 1 — PRODUCT & COMPANY IDENTIFICATION

Product Name: Lily White/Crystal Clear Oil
Product Code: 3002, 3020, 3021, 3023, 3030, 3031, 3032
Material uses: Lubricating Oil
Date: 03/11/2019
Manufacturer's name and address: Refer to supplier
Supplier name and address:

ALBATROSS USA INC./EXPERT WORLDWIDE
36-41 36th Street
Long Island City, New York
United States
11106
718-392-6272

5439 San Fernando Road West
Los Angeles, California
United States
90039
818-543-5850

Emergency Telephone #: Spill, leak, fire, exposure or accident – Call CHEMTREC – Day or Night
1-800-434-9300 or 1-703-527-3887 (USA & Canada)
01-800-681-9531 (Mexico)

SECTION 2 — HAZARDS IDENTIFICATION

2.1 Classification of the Substance or the Mixture
GHS Rating(s): No Classified Hazards
Signal Word: Not Applicable

2.2 Label Elements
Precautionary: P201 Obtain Special Instructions Before Use.
P202 Do Not Handle Until All Safety Precautions Are Understood.
P281 Use Personal Protective Equipment As Required.
Response: P308 If Exposed Or Concerned: Get Medical Advice/Attention.
Storage P405 Store Locked Up.
Disposal P501 Dispose of Container According To Regional Regulations

2.3 Other Hazards

SECTION 3 — COMPOSITION/INFORMATION ON INGREDIENTS

3.1 Substance Details

Lily White/Crystal Clear Oil

Products containing mineral oil with less than 3% DMSO extract as measured by IP-346.

SECTION 4 — FIRST AID MEASURES

4.1 First Aid Measures

Eye Contact: Immediately flush eyes with plenty of water occasionally lifting the upper and lower eyelids. Check for and remove any contact lenses. Continue to rinse for at least 20 minutes. Get Medical Attention.

Inhalation: Remove victim to fresh air and keep at rest in a position comfortable for breathing. If breathing is irregular or if respiratory arrest occurs, provide artificial respiration or oxygen by trained personnel. It may be dangerous to the person providing aid to give mouth to mouth resuscitation. Maintain an open airway. Get medical attention if symptoms occur.

Ingestion: Wash out mouth with water. If material has been swallowed and the exposed person is conscious, give small quantities of water to drink. Stop if the exposed person feels sick as vomiting may be dangerous. Do not induce vomiting unless directed to do so by medical personnel. If vomiting occurs, the head should be kept low so that vomit does not enter the lungs. Never give anything by mouth to an unconscious person. Get medical attention if symptoms occur.

4.2 Symptoms & Effects

To Physician: Treat symptomatically. Contact poison specialist if product has been ingested.

Specific Treatment: No specific treatment.

4.3 Symptoms & Effects

Protection of First Aiders: No action should be taken involving any personal risk or without suitable training. It may be dangerous to the person providing aid to give mouth-to-mouth resuscitation.

Note to Doctor: Aspiration during swallowing or vomiting may severely damage the lungs. If evacuation of stomach contents is necessary, use method least likely to cause aspiration.

SECTION 5 — FIRE FIGHTING MEASURES

5.1 Extinguishing Media

Suitable Media: CO2, Dry chemical, or Foam. Water can be used to cool and protect product. Do not use water jet as an extinguisher, it will spread the fire.

Unsuitable Media: Water jet as an extinguisher, it will spread the fire.

Specific hazards arising from this product: When heated, hazardous gases may be released including: sulfur dioxide. A solid stream of water will spread the burning material. Material creates a special hazard because it floats on water. This material is harmful to aquatic life. Any fire water contaminated with this material must be contained and prevented from being discharged to any waterway, sewer or drain.

5.2 Firefighters Advice
**SECTION 6 — ACCIDENTAL RELEASE MEASURES**

6.1 Personal precautions, protective equipment

**General Measures:** No health affects expect from the cleanup of this material if contact can be avoided. Follow personal protect equipment recommendations found in Section 8 of this SDS.

6.2 Environmental Precautions

**Non-Emergency Personnel:** Avoid dispersal of spilled material and runoff and contact with soil, waterways, drains and sewers. Inform authorities if the product has caused environmental pollution. Water Polluting Material may be harmful to the environment if released in large quantities.

6.3 Materials & Methods to Contain and Cleanup

**Reference Section 8:** Follow all protective equipment recommendations provided in Section 8.

**Spill Control Measures:** Prevent the spread of any spill to minimize harm to human health and the environment if safe do so. Wear complete and proper personal protective equipment following the recommendation of Section 8 at a minimum. Dike with suitable absorbent material like granulated clay. Dispose of according to Federal, State, Local, or Provincial regulations. Used fluid should be disposed of at a recycling center.

**Containment and Cleanup:** Stop leak if without risk. Move containers from spill area. Approach release from upwind. Prevent entry into sewers, water courses, basements or confined areas. Wash spillage’s with non-combustible, absorbent material e.g. sand earth vermiculite or diatomaceous earth and place in container for disposal according to local regulations. Dispose of via licensed waste disposal contractor. Contaminated absorbent material may pose the same threat hazard as the spilled product.

**SECTION 7 — HANDLING AND STORAGE INFORMATION**

7.1 Safe Handling

**Personal Protective Equipment:** Put on appropriate personal protective equipment (see Section 8). Do not ingest. Avoid contact with eyes, skin and clothing. Avoid breathing vapour or mist. Avoid release to the environment. Keep in the original container or an approved alternative made from a compatible material, keep lid tightly closed when not in use. Empty containers retain product residue and can be hazardous. Do not reuse container.

7.2 Safe Storage

**Required Conditions:** Odorous and toxic fumes may form from the decomposition of this product if stored at temperatures in excess of 113 deg F (45 deg C) for extended periods of time or if heat sources in excess of 250 deg F (121 deg C) are used. Store away from incompatible materials. See Section 10 for incompatible materials.
7.3 Specific End Use

**Designed Purpose:** This product is designed for use as a Specialized Usage Lube Oil.

### SECTION 8 — EXPOSURE CONTROLS

#### 8.1 United States Exposure Limits

<td></td>
</tr>
</tbody>
</table>

#### 8.2 Exposure Controls

**Engineering Controls:** Material should be handled in enclosed vessels and equipment, in which case general room ventilation should be sufficient. Local exhaust ventilation should be used at points where dust, mist, vapors or gases can escape into the room air. No special requirements under ordinary conditions of use and with adequate ventilation.

**Environmental Exposure Controls:** General room ventilation should be satisfactory. Local exhaust ventilation may be necessary if misting is generated.

**Hygiene Measures:** Always observe good personal hygiene measures, such as washing after handling the material and before eating, drinking, and/or smoking. Routinely wash work clothing to remove contaminated. Discard contaminated footwear that cannot be cleaned.

**Eye/Face Protection:** If contact is likely, safety glasses with side shields are recommended.

**Skin/Hand Protection:** Butyl rubber. Use nitrile or neoprene gloves. Use good industrial hygiene practices. In case of skin contact, wash hands and arms with soap and water. Use caution when opening manway covers of storage and transportation containers. 3-nitroaniline crystals may be present on the interior surface of these openings. 3-nitroaniline is toxic by dermal exposure.

**Respiratory Protection:** Use a properly fitted air purifying or supplied air respirator complying with an approved standard if a risk assessment indicates this is a necessary. Respirator selection must be based on known or anticipated exposure levels, the hazards of the product and the safe working limits of the selected respirator.

### SECTION 9 — PHYSICAL AND CHEMICAL PROPERTIES

#### 9.1 Information on Basic Physical and Chemical Properties

- **Physical state:** Liquid
- **Color:** B&C
- **Odor:** Characteristic of Petroleum
- **Odor Threshold:** No data available
**SECTION 10 — STABILITY AND REACTIVITY**

10.1 Material Analysis

Reactivity: No data available
Chemical stability: Stable under normal circumstances
Possibility of hazardous reactions: Hazardous polymerization will not occur

10.2 Environmental

Conditions to avoid: Temperature above the high flash point of this combustible material in combination with sparks, open flames, or other sources of ignition.

Incompatible materials: Strong oxidizing agents

Hazardous decomposition products: Carbon monoxide, Smoke, Sulfur Oxides, aldehydes, and other petroleum decomposition products in the case of incomplete combustion. Oxides of nitrogen, phosphorus, calcium, copper, magnesium, sodium, and hydrogen sulphide may also be present.

**SECTION 11 — TOXICOLOGICAL INFORMATION**

11.1 Toxicological Effects

Ingestion Toxicity: No hazard with normal usage.
Skin Contact: This material is likely to be slightly irritating to skin based on animal data.

Inhalation Toxicity: Non-hazardous under Respiratory Sensitization category
Eye Contact: The material is likely to be irritating to eyes based on animal data.

11.2 Inhalation Toxicity Data
<table>
<thead>

<td>Rat</td>
</tr>
</tbody>
</table>

Sensitizer: No data available to indicate product or components may be a skin sensitizer.

Mutagenicity: No data available to indicate or any components present at greater than 0.1% is mutagenic or genotoxic.

Carcinogenicity: Not expected to cause cancer. This product meets the IP-346 criteria

Reproductive Toxicity: No data available if components greater than 0.1% may cause birth defects.

**SECTION 12 — ECOLOGICAL INFORMATION**

12.1 Aquatic Toxicity

Persistence and degradability: No data available.

Bioaccumulative potential: Bioconcentration may occur. No data available.

Mobility in Soil: No data available.

Results of PBT and vPvB assessment: Not determined.

Other adverse effects: No data available.

12.2 LC50 Toxicity Data

</tbody>
</table>

**SECTION 13 — DISPOSAL CONSIDERATIONS**

13.1 Waste Treatment

Waste Treatment Methods: Dispose of according to Federal, State, Local, or Provincial regulations.

Disposal Methods: Recycle used oil.

Waste Disposal: Use material is non-hazardous according to environmental regulations.

Contaminated Packaging: Recycle containers whenever possible!
SECTION 14 — TRANSPORT INFORMATION

14.1 U.S. Department of Transportation (DOT)

14.2 Shipping Description: If shipped by land in a packaging having a capacity of 3,500 gallons or more, the provisions of 49 CFR, Part 130 apply. (Contains oil) International Maritime Dangerous Goods (IMDG).

14.2 DOT Compliance Note: U.S. DOT compliance requirements may apply. See 49 CFR 171.22, 23 & 25. Transport in bulk according to Annex II of MARPOL 73/78 and the IBC Code Not applicable International Civil Aviation Org./International Air Transport Assoc. (ICAO/IATA).

14.2 DOT Compliance Requirement: U.S. DOT compliance requirements may apply. See 49 CFR 171.22, 23 & 24

SECTION 15 — REGULATORY INFORMATION
